From the Freney Files

What a great start to 2024. We welcomed back our returning young people and also had the pleasure of welcoming approximately 30 new young people and their families. The return of new and current young people in Term One brings a vibrancy and energy to the school that is very welcomed after such a long break.

It is a privilege to witness each young person contribute their amazing qualities to our community and we particularly enjoy their humour and their honesty. We applaud their bravery in committing to our school — a school that uses Four Principles as their guide and ultimately creates the boundaries of how we work and come together as a community. The Principles can be abstract concepts and very different from the usual way of doing schooling. Using our Four Principles brings its own unique set of challenges around who we are and what we can bring to our space. Our passion around the Four Principles is about supporting our wonderful young people in building their strength and resilience so they are able to meet the world head on.

Not only have we welcomed new young people to become part of our school, but we also welcomed five new staff members to our learning community. Their eagerness and willingness to be a part of our Flexi community has enriched our incredible staff group, ensuring this space is a remarkable place to work and learn. Our new staff members are:

- Sian Scelly – Skills, Training and Transition officer
- Tahlia Best – Youth Worker in the senior space
- Amanda Verhoven – Teacher in the senior space
- Sophia Donaldson – Teacher in the junior space
- Jacque Stark – Youth Worker in the junior space

This year we have introduced a daily circle. We ask the young people and staff to step into the circle as a way of saying they are ready to participate and be part of the community. It is also a time that we can greet each other, share messages, and start the day on a positive note. Thank you to all of our families that are encouraging our young people to take an active part of this daily. A by-product of coming together every day is that we are listening to more young people voices as well as starting the day with a laugh.

BUSES

Our school bus runs are way of ensuring that getting to school is not a barrier for attending school. Our school bus runs are popular. Each run is full, but we are noticing that many of the young people are not catching their designated bus on a regular basis. This is a concern for us as we are sending staff out to do the daily bus runs with only one or two young people on the bus. We have had times where there were no young people on the bus run at all. This is time and money that we don't have the luxury of wasting. Each day requires 8 staff members for at least an hour of their time to implement these twice daily bus runs. We will be contacting families of the young people who currently have a spot on the bus but are not catching the bus consistently. As mentioned there is a huge demand and there are other young people awaiting a space to open up.

We thank you for your ongoing support of your young person and our school community. As the old saying goes, it takes a village, and we have enjoyed sharing our Term One achievements with you, particularly our Welcome BBQ at the beginning of the term and our Celebration of Learning Day for the last day of Term. Wishing you a very safe and happy Easter break with your family and friends, and we look forward to seeing you all for Term Two.

Peta

The Royes Review

Term 1 has been a busy time for Ipswich Flexi, and it's remarkable to think that ten weeks have flown by since our induction program commenced. Welcoming new young people into our community always initiates a settling-in period as we adjust to the rhythm and flow of doing school differently. As expected, our young people have risen to the occasion, forging new friendships and actively engaging in the diverse programs offered by our exceptional staff within their class groups.

The incredible range of learning experiences organised for each year group this term has provided our students with remarkable opportunities to cultivate various skills while fostering group formation. Personally, a standout moment for me was the opportunity to participate in a sailing day with the Lockyer class. Witnessing these young people seamlessly navigate the waters of Coochie Mudlo showcased their incredible teamwork and leadership skills. Our educational approach, enriched by such experiential learning opportunities, empowers our students to step beyond their comfort zones, embrace challenges, and invariably discover avenues to succeed while enjoying the process. Undoubtedly, these experiences will set them on a path to thrive within our community.

Moreover, our dedicated staff members have actively pursued their own professional development this term. New additions to our team have completed training in Collaborative Problem Solving, a cornerstone of our conflict resolution approach, and the Reboot program, integral to our wellbeing framework. These initiatives ensure that our entire community, including staff, students, and stakeholders, shares a common language and approach to operation by principles.

I extend my heartfelt thanks to all our young people and staff for their contributions in making Ipswich Flexi a vibrant and dynamic school community. While each day presents its unique set of challenges, it also brings new opportunities for growth and friendship as we journey together. I wish everyone a restful and safe period, and hope to see you all in the new term.

Luke

Flexi Holiday Program

WHAT'S ON?

HOLIDAY PROGRAM – TERM 1 2024

Week 1

Tuesday	Thursday 4 th April
No activity's	Surviving Nate (survival skills)

Week 2

Tuesday 9 th April	Thursday 11 th April
Horsing around with Maddie	Getting well with Jacob and Tahlia (Going to Jacobs well)

Term 2 2024 Important Dates

Tuesday 16 April	Term 2 begins
Thursday 25 April	Anzac Day Public Holiday
Monday 6 May	Labour Day Public Holiday
Friday 17 May	Ipswich Show Day Public Holiday
Friday 21 June	Term 2 concludes

Term 4 guess who?

Last term's fabulous
universe ponderer was
none other than
Nate Roberts!

Term 1 guess who?

Who is this
fabulous
staff member
out on program...

Who am I ?

Junior Lockyer Learning Hub

In Lockyer Juniors this term we have been forming as a group and getting to know what life at Flexi is like. We have a good understanding of the four principles, common ground, working agreements and circles and how they all work together to provide us with a voice in how our educational journey at Flexi will unfold. We have learnt about our brain and how we can feed the various parts so that we are ready for learning. We have also discovered the learning zone and how to identify which one we are in. we are beginning to develop the skills to move from one zone to another by crossing the line of opportunity. We have been on heaps of outings to help us learn to work together as a team, including Frew Park, Flagstone Water Park, Kholo Gardens, Bob Gambley Park, and Wivenhoe Dam. We also had three days at Strong's Farm where we had a great time doing activities and getting to know one another better. We have had to unlearn a lot of things especially some of the habits we brought with us which don't work with the way of doing things at Flexi. We had an awesome day sailing and we can't wait to show our parents and carers what we have been up to at our Celebration of learning. We have had a great term settling in and learning the Flexi way and we are looking forward to term two.

Jon & Jas

Junior Elliot Learning Hub

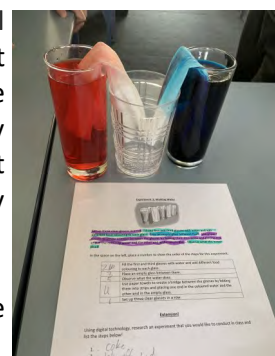

Elliot hub have had a cracking start to 2024! Each young person who has attended outings this term has done so with positivity and an adventurous spirit. It's been great to see our hub getting to know each other in and outside school grounds. Some highlights this term have been our outing to Narrowneck beach, swimming and body surfing the waves, also enjoying delicious food and spending quality time getting to know each other. It has also been great to see young people talking with friends and making connections with peers they don't always get opportunities to talk to in class.

Ice skating at Ice world was also an amazing experience. One highlight was watching our group support each other while in the learning zone and pick each other up off the ice and encouraging people to keep skating.

In science we have been learning about Gravity, an invisible force of attraction between all objects that have mass. It is the force that pulls things to the centre of Earth. And the roll that gravity plays as it holds Earth and the other planets in their orbit around the Sun. In Maths we have been focusing on foundational concepts of multiplication and addition, including money maths around budgeting and saving. Every Wednesday we have been learning about wellbeing and how to fuel our wild brain, emotional brain and smart brains, along with many other strategies for self awareness and esteem.

We hope you have a wonderful Easter break and look forward to seeing you in Term Two!

Zach, Sophia & Katie

Middle Waterford Learning Hub

It has been an excellent start to the Flexi academic year in the Waterford Middle Hub!

The Young People have embraced the commencement of our 'Water' unit with enthusiasm. We have and will be covering general scientific formulae of water and water samples/the topographical features which lead to water courses/the water cycle and reviewing feature movies that have a water theme. In our numeracy work we have been revising place value, two- and three-digit addition/subtraction and basic algebraic equations. Our outings have also a water theme and we have explored wave movement, tidal flow, erosion and *ph*. sampling.

We are blessed to work with these beautiful Young People and Megan, Maddi and myself are looking forward to Term 2 adventures. We hope our young people and their families have a wonderful and safe Easter break.

Keith, Maddi & Megan

Middle Xavier Learning Hub

In the Middle hub Xavier classroom our year 9 and 10 young people jumped into an immersive water-themed unit that intertwines hands-on experiments with enriching book work, all aligned with the Australian Curriculum. Embracing the theme of water, young people embark on a journey where they explore the interconnectedness of this vital element with various aspects of science, geography, literature, and environmental studies. Through engaging experiments, they investigate the properties of water, its role in ecosystems, and its significance in sustaining life on our planet. Alongside practical activities, young people delve into literature that celebrates water's cultural, historical, and symbolic importance, fostering a deeper understanding of its impact on societies throughout history. Through this approach, students not only gain essential scientific knowledge but also develop a profound appreciation for the intricate relationship between humanity and the natural world. By infusing fun and curiosity into their learning experience, young people are empowered to become stewards of water conservation and environmental sustainability, equipped with the skills and knowledge to make a positive impact in their communities and beyond.

Xavier young people have had a wonderful start to Term One, and we look forward to exploring and learning in Term Two! Have a wonderful Easter break.

Emmerson & Nate

Senior Mackillop & Jacaranda Learning Hub

We've had such a good time this term in the Senior Group! We have attended so many fun outings, including Orion Lagoon, the Railway Museum, and J.C. Slaughter Falls. The learning group have started our Applied Subjects, and young people have been learning many skills in their chosen areas.

The Visual Arts in Practice group has been analysing famous artists and their art works, learning how to mimic their creative techniques and apply them to their own practice. In the Science in Practice group, young people have been learning about the field of forensic science and have been exploring scientific processes used in the field of forensic science and executed procedures, such as fingerprinting, casting and blood spatter. Students have been learning to identify, explain and organise evidence for analysis, as well as investigating different crime scenes and learning how police and detectives solve these crimes. This included a trip to the Police Museum, which was an interesting experience for all who attended.

In the learning space, young people are researching their social issues, budgeting, and learning other skills to help them get workplace ready! We thank you all for all your effort this term, can't wait to see how the rest of the year goes. Have a restful Easter break!

Amanda, Kori, Shayal & Tahlia

Senior Transitions

As we wrap up an eventful Term 1, we reflect on the many achievements within our transitions and workspace. We're thrilled to announce that three of our wonderful senior students - Blake, Lily, and Anthony have successfully commenced their Cert 1 in Construction. Congratulations on this remarkable accomplishment! Apprenticeships QLD have recognised your dedication and adherence to the four principles. We also applaud Izzy and Brendon for their return to complete the final year of their TAFE QLD Certificate courses. Your hard work, motivation, and commitment to your studies are truly commendable.

In another exciting development, five of our students recently passed their Learner Licence Tests at Inala Elders. Rayne, Charlie, Jade, Desmond, and Declan, you've made us proud by illustrating the four principles. Best of luck as you continue to fulfill your required driving hours. Furthermore, a heartfelt shout-out to all the students who have been diligently crafting their resumes and actively seeking employment opportunities. Keep up the fantastic effort as we continue to support our young people in achieving their transition goals. Young people, their carers, and stakeholders are encouraged to get in touch and schedule a meeting to discuss their transition requirements.

Looking ahead to Term 2, we have exciting new projects lined up to equip our young people for the workforce. Stay tuned for updates on our Flexi Fair – Careers Day, where students, families, and communities will come together to explore various aspects of work, education, and career opportunities.

Sian – Skills Training and Transition Officer

Senior Transitions - White Card Notice

IFLC would like to share some important updates regarding the General Construction Induction Training (GCIT), commonly known as the White Card requirement, particularly for Queensland.

As of February 2023, there have been significant changes to the White Card training regulations in QLD. It has come to our attention that some of our students have recently completed courses that are no longer approved to issue White Cards. This unfortunate situation has led to financial losses for some students and has prevented them from accessing opportunities to work on construction sites.

To prevent any further inconveniences, it's crucial that students and their families verify the training organisation's accreditation before enrolling in any White Card courses. Here are some key points to consider:

- Ensure that the training provider offers either CPCWHS1001 or CPCWHS1001 units. To obtain accreditation for these units, students will need to provide their Unique Student Identifier (USI) number.
- The course must run for a minimum of 4.5 hours face-to-face. While this can be completed either online or in a classroom setting, pre-recorded sessions will not meet the accreditation requirements.

Should you have any questions or require assistance in selecting an appropriate course, please do not hesitate to reach out to Sian the Skills Training and Transitions Officer. Sian is here to support students and families through this process.

Exciting news for the upcoming Term 2! We are thrilled to announce that students will have the opportunity to complete their White Card training through IFLC, completely free of charge. This onsite training will be conducted with the support of IFLC staff, ensuring a smooth and enriching learning experience for all participants. More information will be provided in Term 2 with how students can express their interest in attending.

Sian – Skills Training and Transition Officer

Inclusive Education & Library Legends

Well Hello Peoples!

Erin from the Library here. Whilst the library has not put on a display this term, it has still been a regular hive of activity in there. Term 1 saw a return of the Word of the Week, with young people needing to use the word in a sentence to earn a reward. Some of the more popular words included: Iteration, admonish, ambivalent, principle, staccato and usurp.

In addition to this, the library has hosted the school's NAPLAN Practice and Testing in recent weeks with 9 students across years 7 and 9 having completed part, if not all of the NAPLAN tests. Well done young people for your perseverance and patience during this time.

Finally, next term we hope to be getting underway with our regular literacy support program. I will be joined in this program by Chantal and we will also see Natalie return to our space when she returns from maternity leave. With this in mind, I have also been coming up with ideas for a library display towards the end of term 2, so there are exciting things happening in the library next term. Have a happy & safe Easter!

Erin
